- Vestibules
- Wineries
- And more...

DécorChips®

One-Day Installation

Features	Benefits
Durable	Provides superior chemical and abrasion resistance over pre-engineered floors, with tensile strength of 4,500-5,000 psi.
Decorative	Designed to compliment any color scheme inside or outside your home or business.
Economical	Provides a cost-effective alternative to Granite, Terrazzo, and pre-engineered floors.
Safe	Provides an orange-peel texture that increases slip-resistance and safety.
Maintenance	Nonporous seamless flooring is low maintenance and easy to upkeep with soap and water.
Renewable	After years of wear and tear, renew your floor by sanding the surface and applying a new topcoat.

Why Marbelite DécorChip® Polyaspartic System?

- No hot-tire pickup
- One-day installation (install today, return to service tomorrow!)
- Superior to Epoxy
- Resistant to most chemicals and auto fluids
- May be applied to vertical surfaces
- Non-yellowing and UV stable
